BUMPER RETENTION

Bumper helps automotive dealerships engage their customers through automated lifecycle communication. By leveraging customer data, it delivers personalized outreach across Email, SMS, Letters, Phone Calls and Voicemail to increase repeat service visits and drive customer loyalty. Dealers benefit from transparent reporting, proven ROI, and dedicated human support that ensures consistent performance.

TURNING CUSTOMER DATA INTO LASTING DEALER LOYALTY

Bumper Retention is an automated lifecycle marketing solution built for dealers. It helps stores maintain ongoing relationships with their customers through consistent, data-driven communication. By combining advanced automation with tailored creative, Bumper ensures every customer receives the right message at the right time.

From service reminders and trade-in opportunities to lease renewals and post-sale engagement, Bumper empowers dealerships to turn one-time customers into lifelong advocates. Dealers can track results in real time through transparent reporting dashboards, and our team provides ongoing support and monthly strategy sessions to continuously improve campaign performance.

For dealerships looking to take customer engagement even further, Bumper offers live phone outreach, in-store consultation support, and professional lead management services—helping your team connect with customers personally and ensure every lead receives real, human attention.
